CWA Section 404 FOR REVIEW.docx

Hey all, this has seen some significant revision lately. Per direction, I've combined discussion of assumed and Corps 404 programs. I also incorporated some numbers from the aquatic resources chapters to try and give a sense of the scope of change we might be talking about – if there's something different we should do to match the EA, I'm happy to incorporate that. The gist is that in some way we need to describe the scope of the current program.

I'm attaching a Word doc for Stacey, but please make any changes in the Sharepoint doc if possible, thanks.

I know everyone is busy. Edits by COB tomorrow would be greatly appreciated. If that isn't possible, please let me know what your timing is – Mindy has told me we are no longer planning to move the TSD to senior leadership for review this week, but asked me to keep things moving as expeditiously as possible.
